

# CITY OF NEW BALTIMORE

36535 GREEN STREET • NEW BALTIMORE, MI 48047 • (586) 725-2151 • FAX (586) 725-6927

## Public Service Announcement

### From your City of New Baltimore Wastewater Treatment Plant

As with anytime but, especially during these next few challenging weeks. The City of New Baltimore WWTP would respectfully request that you flush nothing down your toilet other than normal waste and toilet paper.

No sanitary sewer system is designed to take anything other than that. Nothing that says "flushable" is truly flushable. Everything other than normal waste & toilet paper has the high potential of clogging your household system. If it does make it to the City's sanitary sewer collection system and wastewater treatment plant there is a high probability of clogging or damaging equipment. This could cause wider spread problems for all our residents and put additional stress on already stressed City personnel and resources. If there is absolutely no other option for personal hygiene. Please place the non-flushable item in the trash.

We have the best residents of anywhere and we thank you for your continued cooperation!

Sincerely,  
Your City of New Baltimore Services
