File No.: LSC 655

Date: May 17, 2011

PUBLIC NOTICE

The City of New Baltimore, 36535 Green Street, New Baltimore, Michigan, 48047, has applied to the Water Resources Division (WRD), Michigan Department of Environmental Quality (DEQ), for a conveyance (public use agreement) to a 0.26-acre parcel of Lake St. Clair public trust bottomlands and open waters adjacent to Burke Park. The MDEQ issued a permit (#10-50-0118-P) to construct an open-pile dock for public transient use. The proposed public use agreement would provide the applicant with the authorization from the State of Michigan to occupy the subject Lake St. Clair public trust bottomlands for the described purposes.

When an application is received for a conveyance of State-owned bottomlands, pursuant to Part 325, Great Lakes Submerged Lands, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, the MDEQ submits copies for review to the Director of Community Health, the city, village, township, county, adjacent property owners, and other persons where the project is to be located. Additionally, notification is provided to certain persons as provided by statute or determined by the MDEQ.

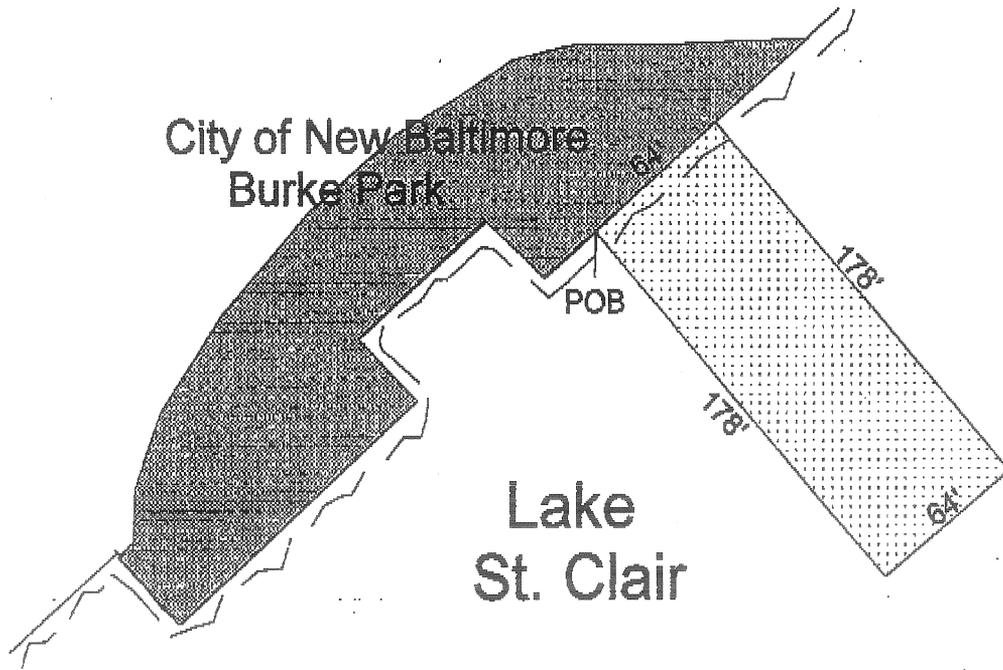

Any person or agency wishing to make comments on the proposed conveyance shall furnish this office with their comments in writing no later than 20 days from the date of publication of this notice. The MDEQ will judge all proposed conveyances on their effect on the public trust in hunting, fishing, and navigation, as well as other criteria. The determination as to whether a conveyance will be issued or a public hearing held will be based on an evaluation of all of the relevant factors, including the effect of the proposed work on the public trust or interest.

Written comments on these factors will be made a part of the file and will be considered in determining if it is in the public interest to grant a conveyance. Objections must be factual and specific, and fully describe the reasons upon which any objection is founded.
